

- MARBLE
- TERRAZZO
- TERRAZZO
- NATURAL STONE
- TERRACOTTA

### WHAT IT'S FOR

- Protects floors in marble, travertine, and stone agglomerates including terrazzo.
- Revitalises the shine of polished finishes.
- An ideal first and final coat for the traditional treatment of terracotta and for routine maintenance.

### ADVANTAGES

- Provides a splendid natural shine.
- Easy to apply and maintain.
- Protects surfaces from the effects of time.
- Does not degenerate with maintenance.
- Can be re-polished to enhance the shine.

### HOW TO USE IT

*Dilution:* either undiluted or diluted according to requirements.

**Protects surfaces in marble and stone agglomerates and stone with polished finish:**

*Existing floors:* apply undiluted wax with a damp cloth or other applicator. Let it dry well (about 1 hour), then buff with a wool cloth or floor polisher.

*New floors:* dilute 1 litre of product in 1-2 litres of water and apply, proceeding as described above.

**For finishing the treatment with the application of a water/solvent-based protectors (terracotta and natural stone):**

*After the application of water-proofing (e.g. FILAW68 or FILAF0B), spread FILAClassic undiluted using a fleece pad or other suitable applicator. Let it dry well (about 1 hour), then buff with a wool cloth or floor polisher.*

**For traditional treatment with paste wax on terracotta:**

*Apply the undiluted product with a flat paintbrush. After 4 hours, apply two coats of paste wax NATURWAX. Wait 8 hours, polish and then complete the treatment with a last coat of FILAClassic undiluted wax with a cloth, fleece pad or other applicator. Let it dry well (about 1 hour), then buff with a wool cloth or floor polisher.*

**For maintenance:**

*Restoring sheen (every 2-3 months): after cleaning the surface with a diluted solution of FILACLEANER (1:200), apply FILAClassic diluting 500 ml of product in 5 litres of water. Buff the surface when it is dry (after about 1 hour).*

*Renewing protection (once a year): apply undiluted wax with a cloth, fleece pad or other applicator. Buff the surface when it is dry (after about 1 hour).*

#### COVERAGE

With one litre:

Terracotta	30 m <sup>2</sup>
Stone	30/40 m <sup>2</sup>

"Coverage shown is for guidance purposes only and refers to single coats"

### Packaging

1 litre cans in boxes of 12.  
5-litre cans in boxes of 4.

#### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.
- Not recommended for use on outdoor surfaces or in damp environments and where water remains (bathrooms, showers).

#### TEMPERATURES

*Storage temperature:* from 5° to 30° C  
The product must be applied to material with a temperature of between 10° and 30° C.

#### COMPOSITION

Emulsion of natural and synthetic waxes in water, non ionic emulsifier, polymer suspension, fragrance and additives (preservative, anti-foam agent and wetting agent).

#### LABELLING

No safety and risk labelling or instructions are required, as the product is not classified as hazardous under current regulations.

Contains: 2,2,2"-(Hexahydro-1,3,5-triethyl-1,3,5-triazine-1,3,5) triethanol.

May produce an allergic reaction.

#### TECHNICAL FEATURES

**Appearance:** liquid  
**Colour:** milky white  
**Odour:** floral bouquet  
**Density:** 1.001 kg/l  
**pH:** 8.1
